Powerful detergents combined with optical brighteners and stain removers give **LAUNDRY DETERGENT** extra strength to clean even the toughest grease and oil. Gives clothes a "like new" brightness, with the softness expected from a quality detergent.

DIRECTIONS: For top loading washers, use 3/4 cup of **LAUNDRY DETERGENT** per load of normally soiled clothes.

Front loading washers generally hold smaller loads and may require less detergent.

For institutional machines, use 1 cup of **LAUNDRY DETERGENT** per 20 pounds of laundry. Extremely soiled garments may require a pre-soak or a larger amount of detergent.
