

FOMAGIC

FOAMING HAND SOAP DISPENSERS

Built tough like a football helmet using heavy-gauge ABS plastics. Perfect for high-impact, high-traffic areas. Stands up to heavy use.

Economical to use. Refillable 1000 ml bottle cartridge takes any bulk foaming hand soap or hand sanitizer. Take the big cap off, fill 'er up.

One hand manual operation. No batteries to buy. If there's soap in it, it works.

Be frugal. Dispenses a mere 0.8 ml of soap in a big foamy dollop. One push is plenty. You get up to 1,200 hand washes on a fill-up.

Great security. Key double hole lock tabs located on top allow easy access. To open, you push down two recessed lock tabs, not just one.

Easy install. You can screw it to the wall or peel and stick to a mirror or wall tiles.

Big recessed window. You see what you have.

Scratch resistant, impact resistant. The FOMAGIC always looks good.

Your choice of colors, black or white. Goes with any décor.

FOMAGIC...foshizzle!
