

BUG BALLS

Bug Removing Windshield Cleaner

Form: Solid (Granular)

Color: Blue

Odor: Mint-like

pH: 7.5-8.5 [Conc. (% w/w): 1%]

Solubility (in water): Soluble
(in mineral spirits): No data available

VOC Content (% by weight): No data available

Flash Point (Closed Cup): >200°F

Specific Gravity: 1 g/ml at use dilution

Density: 7.61 lbs/gal (Bulk density)

Storage Stability (at 70°F): 1 year

Ingredients

C.A.S.

Sodium dodecylbenzene
sulfonate25155-30-0
Citric acid77-92-9
Sodium carbonate497-19-8
Sodium bicarbonate144-55-8
Disodium metasilicate6834-92-0

Ideal for use on...

- **Windows**
- **Mirrors**
- **Pictures**
- **Chrome**
- **Porcelain**
- **Tile**
- **Appliances**
- **Formica**
- **Windshields**

DIRECTIONS: Add one BUG BALL packet into gas island squeegee bucket and fill with 2 – 2.5 gallons of water. Fizzing action speeds dilution. Apply BUG BALL solution with a sponge applicator and allow it to penetrate the bug residue. Scrub with the mesh scrubber side of the squeegee head. Squeegee the windshield dry with overlapping strokes of the rubber squeegee blade.

VEHICLE RESERVOIRS: Add two BUG BALL packets to 5 gallons of water. Add prepared solution to vehicle window washing reservoir.

Note: This product does not prevent solution from freezing. Do not handle packets with wet hands. Do not remove packets from container prior to use. Humidity and water will destroy the packet integrity.
