

# AB-76

**REMOVES DIRT AND OXIDATION AS IT  
RESTORES LUSTER TO ALUMINUM SURFACES**

## DANGER

Causes severe skin burns and eye damage. May cause an allergic skin reaction. Causes serious eye damage. Toxic if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Suspected of causing genetic defects. May cause cancer.

**KEEP OUT OF REACH OF CHILDREN**

**NET CONTENTS: 5 GALLONS**

**DANGER:** Causes severe skin burns and eye damage. May cause an allergic skin reaction. Causes serious eye damage. Toxic if inhaled. May cause allergy or asthma symptoms or breathing difficulties if inhaled. Suspected of causing genetic defects. May cause cancer.

**PREVENTION:** Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapours/spray. Avoid breathing dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Contaminated work clothing should not be allowed out of the workplace. Wear protective gloves/protective clothing/eye protection/face protection. Use personal protective equipment as required. In case of inadequate ventilation wear respiratory protection. Immediately call a POISON CENTER or doctor/physician. Call a POISON CENTER or doctor/physician. Wash contaminated clothing before reuse.

**IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting.

**IF ON SKIN:** Wash with soap and water.

**IF ON SKIN (OR HAIR):** Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

**IF INHALED:** Remove victim to fresh air and keep at rest in a position comfortable for breathing.

**IF INHALED:** If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing.

**IF IN EYES:** Rinse continuously with water for several minutes. Remove contact lenses if present and easy to do - continue rinsing.

**If exposed or concerned:** Get medical attention.

**If skin irritation or a rash occurs:** Get medical advice/attention. Call a POISON CENTER or doctor/physician.

**AB-76** is specially formulated for fast and complete removal of corrosion and oxidation from aluminum surfaces. Leaves aluminum bright and clean. Ideal for use on aluminum trailer bodies, boats, building materials and other exterior aluminum surfaces.

**DIRECTIONS: ALWAYS WEAR RUBBER GLOVES AND SUITABLE ACID RESISTANT PROTECTIVE GARMENTS WHEN HANDLING!**

Dilute 1 part **AB-76** with up to 15 parts of water. Swab or spray onto surface to be cleaned and rinse thoroughly when cleaning is complete. Test **AB-76** on an inconspicuous area before using on painted surfaces.

**STORAGE:** Store in a well-ventilated place. Keep container tightly closed.

**DISPOSAL:** Dispose of contents/container to comply with local/regional/national/international regulations.

**WARNING:** This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

## INGREDIENTS/CAS#:

Water (7732-18-5); Sulfuric Acid (7664-93-9); Hydrofluoric Acid (7664-39-7); Alkylidiphonyloxide Disulfonate (7757-82-6); Cocamidopropyl Betaine (61789-40-0)

## NFPA® RATINGS:

Health: 4; Flammability: 0; Reactivity: 0

For industrial and commercial use only.

For additional information, see Safety Data Sheet.

Extremely corrosive and destructive to tissue. Specialized medical treatment is required for all exposures. May be fatal if inhaled, absorbed through skin, or swallowed. Material is absorbed through the skin. Get medical attention immediately. While waiting for medical attention, it has been shown that flushing the affected area with water for 1-5 minute and then massaging HF Antidote Gel into the wound until there is a cessation of pain is a most effective first aid treatment. HF Antidote Gel contains Calcium Gluconate which combines with HF for insoluble Calcium Fluoride, thus preventing the extraction of calcium from the body tissue and bones. Another alternative first aid treatment, after thorough washing of the burned area, is to immerse the burned area in a solution of 0.2% iced aqueous Hyamine 1622 or 0.13% iced aqueous Zephiran Chloride. If immersion is impractical, towels could be soaked with one of the above solutions and used as compresses for the burn area. Hyamine 1622 is a trade name for Tetracaine Benzethonium Chloride. Zephiran is a trade name for Benzalkonium Chloride.

Please Recycle.
