

COVID-19 and latest Share News, March 20th, 2020

Dear Share Customer,

This is a challenging time and I thank you for your patience and understanding as we work through this situation. We are doing our best to provide reasonable expectations as it pertains to sanitizing and disinfectant products and the extended lead times to fulfill orders for these and all products. We are also busy working to ensure that we will be able to continue to manufacture during the weeks ahead.

Our production teams are working overtime and weekends in response to order volume.

Important Notes to Consider:

- **Estimated lead times for Sanitizing & Disinfectant Products is 2-6 weeks. Larger orders are 6+ weeks.**
- **ORDER PROCESSING:** We are experiencing much higher than normal order entry. We are handling them in the order they arrive and working to process them as quickly as possible. This process is slowed by answering lead time and shipping questions. For questions on your order, please contact your local Share Corporation Sales Representative.

Regards,
