Please Recycle.

Share's **POWDERED CAR WASH** is made with a distinct blend of alkalis, detergents and emulsifiers which readily remove dirt, soot and diesel exhaust from any vehicle. **POWDERED CAR WASH** creates a thick lather which penetrates and strips away heavy grime and film without harming existing wax or wood finishes. Formulated with a special rinsing agent, **POWDERED CAR WASH** will not cause streaking when washed away with clean water.

**DIRECTIONS:**

For best results, wash vehicle in a protected or shady area, not in the hot sun. Use 2 to 6 ounces of **POWDERED CAR WASH** in one gallon of warm or hot water. Spray, mop or sponge solution onto wet vehicle and allow to act for several minutes. Rinse thoroughly with clean water. To avoid streaking, begin washing the lower soiled surfaces and move to the upper surfaces.

**POWDERED CAR WASH** may also be used in automatic washers. Use 1 to 3 ounces per gallon of water in the wash tank, or follow the instructions provided by the equipment manufacturer.

**NFPA® RATINGS**

Health: 2; Flammability: 0; Reactivity: 0

For industrial and commercial use only.
