# earth's own **SOY LIFT**

**DISPOSAL:** Offer empty container for recycling.  
If recycling is not available, discard container in trash.

*For industrial and commercial use only.*

*For additional information, see Safety Data Sheet.*

**NFPA® RATINGS:**

Health: 0, Flammability: 1, Reactivity: 0

**INGREDIENTS/CAS#:**

Methyl Ester of Soybean Oil (67784-80-9); Fragrance (Mixture); Dye (Mixture)

**KEEP OUT OF REACH OF CHILDREN.**

**EARTH'S OWN SOY LIFT** is a revolutionary new formula derived from abundant, natural, renewable resources, designed to simplify the cleaning, degreasing and deodorizing chores in lift stations, sewer lines and grease traps. The extraordinary solvent activity of soy methyl ester provides the power needed to penetrate and dissolve thick grease deposits. Due to its unique design, **EARTH'S OWN SOY LIFT** floats on the surface of the water to strip fats, dirt, and grease from walls of lift stations with the rising and falling action of water. A built in, color level indicator allows the operator to

determine product levels by visual inspection. **EARTH'S OWN SOY LIFT** is biodegradable; it contains no petroleum distillates or chlorinated solvents to disturb bacterial activity. Its light, fresh apple scent makes lift station maintenance more pleasant.

**DIRECTIONS:**

**WARNING:** Float valves must be adjusted to prohibit **EARTH'S OWN SOY LIFT** from coming in contact with submerged pumps. Failure to do so could result in serious damage to pump. Use 1/2 gallon of **EARTH'S OWN SOY LIFT** for each square foot of water surface following the chart below. Spray or pour product directly down lift station walls when water is at its lowest level. It is recommended to maintain a 1 to 2 inch layer of **EARTH'S OWN SOY LIFT** on the surface at all times.

**WARNING:** This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

Please Recycle.
