Dispose of contents/container to comply with local/regional/national/international regulations.

**WARNING:** This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

### NFPA\* RATINGS:

Health: 2; Flammability: 0; Reactivity: 0

### INGREDIENTS/CAS #:

Water (7732-18-5); Propylene Glycol (57-55-6); Linear Alcohol Ethoxylate (34398-01-1); Acrylic Polymer(s) (Not Hazardous); Protease (9014-01-1).

**DYNASTY CLEAR OUT** utilizes the digestive abilities of naturally occurring bacteria to break-up organic material (food waste, animal and vegetable fats, oils and undissolved soap residue) into smaller water-soluble particles.

**DYNASTY CLEAR OUT** also works as a drain opener, as the thick-bodied formula carries the digestants to the source of the clog, allowing the digestants to remove the organic matter reopening the drain lines.

### DIRECTIONS:

#### FOR DRAIN MAINTENANCE:

Regular use of **DYNASTY CLEAR OUT** establishes an active bacterial population that works continuously to keep organic matter from building up. Add 1 ounce of **DYNASTY CLEAR OUT** to all drains once per week. Allow the product to work overnight before using drains to give bacteria time to work. For drains that receive large amounts of organic matter (kitchens and garbage disposals), increase the dosage to 2 or 3 ounces once per week.

#### TO REMOVE DRAIN BLOCKAGES:

Pour 2 ounces of **DYNASTY CLEAR OUT** into clogged drains. Its thickened formula will carry this unique product directly to the site of the stoppage. Allow drain to sit undisturbed for at least 6 hours - preferably overnight. Flush drain with hot water for several minutes to loosen clog and restore normal drain flow. If flow is not completely restored, repeat treatment. After flow is restored, start a regular drain maintenance program as described above.
