

OG 73

Peelable Protective Coating

Form: Liquid

Color: White

Odor: Mild

pH: 7.0 – 8.0

Solubility (in water): Soluble
(in mineral spirits): Insoluble

VOC Content (% by weight): <1.0

Flash Point (ASTM D-7821): N/A

Specific Gravity: 1.03 g/cm³

Density: 8.60 lbs/gal

Storage Stability (at 70°F): 1 year

Ingredients

C.A.S.

Water.....7732-18-5

Vinyl Alcohol Polymers &
Copolymers.....Mixture

Polyglycol ester.....Proprietary

Hydrous Silica Salt.....53320-86-8

Triethanolamine.....102-71-6

Use on...

- **Traffic Signs**
- **Bridges**
- **Lockers**
- **Bathroom Partitions**
- **Spray Booths**
- **Autos, Buses, Trucks & Trains**
- **Anywhere Graffiti Is A Problem**

DIRECTIONS: Mix well before using. Using a roller or paint brush, apply a layer onto a clean, non-porous surface and allow OG 73 to dry to a clear film barrier. On vertical surfaces, rolling may be preferred over brushing in order to prevent the product from running. Start at the bottom and work up.

Allow up to 1 hour dry time. If barrier becomes defaced, simply remove OG 73 by peeling or with a water rinse and agitation. Reapply after the surface has dried.

Not for use on wood, painted, and other porous surfaces. Intended for use on enameled, powder coated, electroplated, and solid plastic surfaces. In exterior applications, OG 73 may wash away under extended or heavy rain.
