For industrial and commercial use only.

For additional information, see Safety Data Sheet.

NFPA® RATINGS:

Health: 2; Flammability: 0; Reactivity: 0

INGREDIENTS/CAS #:

Water (7732-18-5); Linear Alcohol Ethoxylate (34398-01-1); Sodium Tripolyphosphate (7758-29-4); Sodium Xylenesulfonate (1300-72-7); Sodium Metasilicate (6834-92-0).

SUPREME is a multi-purpose cleaner and emulsifier safe for use on almost every hard, washable surface. **SUPREME** quickly penetrates, breaks down and emulsifies dirt and oil without redepositing soil. The emulsion system in **SUPREME** suspends the greasy deposits in solution without settling or leaving a film. The formula for **SUPREME** is butyl-free, non-abrasive and biodegradable. It is highly dilutable making it very economical to use. **SUPREME** removes grime, soot, ink, blood, salt, food, grease and much more. The next time you need to clean a hard, inanimate, water washable surface choose **SUPREME** from Share.

DIRECTIONS:

Dilute one part **SUPREME** with water as recommended below:

For Tough Industrial Jobs (Grease, Oil, Dirt, Grime): Start with a 1:16 dilution (8 ounces per gallon) and apply with a tank sprayer or mop. Allow **SUPREME** to work several minutes; agitate with a brush or mop. Rinse with water or wipe clean with a mop, rag or sponge. **For Pressure Washers, Steam Cleaners, Floor Scrubbers:** Dilute up to 1:100 with water (1-2 ounces per gallon). Amount used may vary depending on soil conditions and type of machine used. Road film on vehicles may require light agitation. **For Housekeeping (Floors, Walls, Kitchen Equipment, Most Washable Surfaces):** Start with a 1:64 dilution (2-3 ounces per gallon), depending on soil. Apply to floors with mop or tank sprayer. For daily mopping, no rinsing is necessary. **For Spot Cleaning:** To remove food, lipstick, grease, smoke, dirt and smudges from countertops, stainless steel, doors, walls and woodwork, dilute 1:20 (1 ounce per pint) and apply using a trigger sprayer. Wipe with a clean dry cloth. **For Concrete with Oil and Grease Penetration:** Scrape off excess. Dilute 1:8 (16 ounces per gallon) and apply generously. Let stand 15 minutes, agitate with stiff bristle brush. Rinse with hose.

Safe on most washable hard surfaces. If in doubt, first spot test in an inconspicuous area. Do not allow solution to dry on any surface, especially glass.

Please Recycle.
