DANGER: Flammable liquid and vapour. May be fatal if swallowed and enters airways. Causes serious eye irritation. Suspected of causing cancer.

PREVENTION: Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, open flames, sparks. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical, lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Wash thoroughly after handling. Wear eye protection, protective clothing, protective gloves.

IF SWALLOWED: Immediately call a doctor, a POISON CENTER. Do NOT induce vomiting.

IF ON SKIN (OR HAIR): Take off immediately all contaminated clothing. Rinse skin with water/shower.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

If exposed or concerned: Get medical advice/attention.

In case of fire: Use carbon dioxide (CO₂), dry extinguishing powder, foam to extinguish.

Store in a well-ventilated place. Keep cool. Store locked up.

Dispose of contents/container to comply with local/regional/national/international regulations.

Chlorinated solvents are great at getting things clean, but they also have some very hazardous drawbacks. Why put yourself and others in danger just to get your greasy equipment clean? Cut through grease, oil, tar and other grimy deposits quickly and safely with Share's **CHERSOL**. The blend of solvents found in **CHERSOL** is low in toxicity and has a higher flash point than d-limonene. These powerful degreasers not only cut through grease and grime, they deodorize with the clean, fresh scent of cherries. The emulsifiers in the formula allow you to flush soils away with high pressure water. Maintain your equipment and instruments with a strong, but safe degreaser - **CHERSOL** from Share.

DIRECTIONS:

CHERSOL can be substituted into any cleaning and degreasing task that required chlorinated solvents or petroleum distillates in the past. **CHERSOL** can be used undiluted to reduce employee exposure and reduce the need for wasteful mixing or measuring. Apply liberally to surfaces by dipping, spraying or brushing. Allow 5 to 10 minutes to penetrate heavy deposits.

NFPA® RATINGS

Health: 2; Flammability: 2; Reactivity: 0

INGREDIENTS/CAS #:

Distillate (Petroleum), Hydrotreated Light/64742-47-8; Mixed Xylenes/1330-20-7; Proprietary Fragrance/Mixture; Linear Alcohol Ethoxylate/34398-01-1; Cumene/98-82-8
