Store locked up.

Dispose of contents/container to comply with local/regional/national/international regulations.

NFPA® RATINGS:

Health: 3; Flammability: 0; Reactivity: 1

INGREDIENTS/CAS #:

Water (7732-18-5); Sodium Hydroxide (1310-73-2); Sodium Chloride (7647-14-5)

LIQUID SERPENT works quickly to dissolve and loosen matter that clogs drains. Since it's heavier than water, it penetrates to the bottom of standing water and goes straight to the source of the clog for fast action on stoppages. This proven formula of concentrated sodium hydroxide dissolves grease on contact. Unlike acid-based drain openers that have noxious odors and form dense soap masses when they come in contact with grease deposits, **LIQUID SERPENT** is odor-free and rinses deposits clean away.

- Does not produce the heat or fumes associated with acid based drain openers.

- Suitable for use as a weekly maintenance treatment.

- Loosens organic waste, grease, fats, oils, lint, hair and even paper.

DIRECTIONS:

Pour 1/2 to 1 quart slowly into the drain. Allow to work for at least 30 minutes, and then flush with hot water. For difficult obstructions, a second treatment using the recommended quantities may be necessary. Where there is a history of becoming obstructed, regular use at weekly intervals (or more often if required) will keep the lines open and free flowing.

WARNING:

This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

For industrial and commercial use only.

For additional information, see Safety Data Sheet.
