NFPA® RATINGS:

Health: 2; Flammability: 2; Reactivity: 0

WARNING: This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

Now there is an alternative to hazardous chlorinated and flammable hydrocarbon solvents. **NATRAKLENE** is a unique blend of natural and synthetic components that provides remarkable solvent activity. It utilizes the incredible solvency of natural citrus extracts to cut through grease, oil, grime and tar on contact. Carefully selected aliphatic additives, chosen for their low toxicity and high flash point, complete this development in safer solvents. This unique combination makes even the most unpleasant tasks more enjoyable.

DIRECTIONS:

NATRAKLENE can be substituted into any cleaning and degreasing task that required chlorinated solvents or petroleum distillates in the past. **NATRAKLENE** can be used undiluted to reduce employee exposure and reduce the need for wasteful mixing or measuring. Apply liberally to surfaces by dipping, spraying or brushing. Allow 5 to 10 minutes to penetrate heavy deposits. **NATRAKLENE** is ideal for use in parts washer systems where water cannot be tolerated.

NATRAKLENE also makes an excellent floating lift station degreaser. Natural citrus extracts dissolve thick grease deposits. Its light, fresh orange scent makes lift station maintenance more pleasant. Use 1/2 gallon of **NATRAKLENE** for each square foot of water surface. Spray or pour product directly down lift station walls when water is at its lowest. **NATRAKLENE** will produce a bright orange layer on the water surface.

INGREDIENTS/CAS #:

Distillates (Petroleum), Hydrotreated Light (64742-47-8); (+) limonene (5989-27-5); Alkanes, C14-16 (90622-46-1); Solvent Yellow 14 (842-07-9); Solvent Red 24 (85-83-6)
