

KILLER FOAM

Foaming Wasp & Hornet Killer

Form: Aerosol liquid

Color: Milky white to yellow

Odor: Odorless

pH: 7.5

Solubility (in water): Partially Soluble
(in mineral spirits): No data available

VOC Content (% by weight): 10

Flash Point (Closed Cup): >200°F

Specific Gravity: 0.999 g/cm³

Density: 8.34 lbs/gal

Storage Stability (at 70°F): 1 year

<u>Ingredients</u>	<u>C.A.S. #</u>
Tetramethrin.....	7696-12-0
d-Phenothrin.....	26002-80-2
Propane	74-98-6
Isobutane	75-28-5

Kills...
<ul style="list-style-type: none"> • Yellow Jackets • Wasps • Hornets • Entrapping foam stops wasps instantly

DIRECTIONS: SHAKE WELL BEFORE USE. For best results, spray in early morning or late evening when insect activity is minimal. Stand a safe distance from nest and not directly underneath. Remove protective cap. Hold can upright and point spray opening toward nest with wind at your back. Spray until nest is thoroughly saturated to kill the entire nest population. Residual action will kill wasps and hornets returning to the nest. Wait at least 24 hours before removing the nest.

To kill wasps, hornets and yellow jackets under eaves, screens, window frames, doors, patios, cracks, holes or crevices wherever insects are noticed, spray for about 1 – 2 seconds until surfaces are moist. To prevent entrance of insects into the house, spray around points where insects enter, such as outside plumbing, faucets, etc., and cracks or crevices in foundation as well as along sills and ledges.

CONSULT PRODUCT LABEL FOR DETAILED USE DIRECTIONS.
