**WHERE TO USE:** Use around patios, walkways, driveways and fences. Use in vegetable or flower gardens and around trees and shrubs and other landscaped areas. Use in large areas for lawn renovation or replacement and to prepare garden plots for planting.

**AMOUNT TO USE:** For best result use 6 fl. oz. per gallon of water. For areas with small or seeding weeds use 3 fl. oz. per gallon of water per 300 square feet.

**FOR BEST RESULTS:** Apply when weather is warm (above 60°F) and sunny to stimulate systemic movement from foliage to roots. To avoid spray drift to desired vegetation, adjust spray nozzle to produce large droplets and spray when wind is calm. Spray foliage until thoroughly wet but, not past the point of runoff. Apply when weeds are small and actively growing, before seeds develop.
