#### DANGER:

May be corrosive to metals. Causes severe skin burns and eye damage. Suspected of causing cancer.

#### PREVENTION:

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep only in original container. Do not breathe mist, spray. Wash thoroughly after handling. Wear eye protection, protective clothing, protective gloves. Wash contaminated clothing before reuse.

**IF SWALLOWED:** Rinse mouth. Do NOT induce vomiting.

**IF ON SKIN (OR HAIR):** Take off immediately all contaminated clothing. Rinse skin with water/shower.

**IF INHALED:** Remove person to fresh air and keep comfortable for breathing.

**IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

**If exposed or concerned:** Get medical advice/attention. Immediately call a doctor, a POISON CENTER.

Absorb spillage to prevent material damage.

Store locked up. Store in corrosive resistant container with a resistant inner liner.

Dispose of contents/container to comply with local/regional/national/international regulations.

*For industrial and commercial use only.*

*For additional information, see Safety Data Sheet.*

**TRIDENT ULTRA PROTECT** is a water tower treatment used to inhibit scale formation, control rust and corrosion, and condition tower water. This formulation improves water circulation and heat exchange, keeping cooling towers operating at peak performance, leading to more efficient cooling, lowering fuel and maintenance costs. Using Share's **TRIDENT ULTRA PROTECT** improves water circulation and reduces tube pressure, reducing overall fuel costs, minimizing maintenance and increasing the system's operating life.

#### DIRECTIONS:

Preparation: Flush cooling tower thoroughly to remove loose scale and sludge. Clean the sump, slats and intake strainers to remove algae, scale and debris. If excessive amounts of dead algae, scale and debris are present, drain tower and clean slats and sump thoroughly.

**Application:** Add 1 gallon of **TRIDENT ULTRA PROTECT** for every 100 gallons of cooling tower water.

**Maintenance:** Periodically add more **TRIDENT ULTRA PROTECT** to replace product lost through bleed-off, carryover and wind loss.

**WARNING:** This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

#### NFPA® RATINGS:

Health: 2; Flammability: 1; Reactivity: 0
