KEEP OUT OF REACH OF CHILDREN

Net Weight: 16 oz. (454 g)

JUST RED is a unique aerosol coating specially formulated to protect electrical equipment. It forms a flexible insulating coat that quickly dries to a tough, glossy and non-conductive finish. The dried film resists cracking and chipping, protecting electrical equipment against chemicals, oil, moisture and corrosion. The flexible film that has formed will strengthen and repair worn out and damaged insulation to prevent current leakage, short circuiting and flash-off, insuring optimal efficiency of electrical equipment. It exhibits high arc resistance and has high dielectric strength. **JUST RED** is great for use by electrical suppliers, mechanics, industrial maintenance shops, manufacturing plants and utility plants.

DANGER:

Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes skin irritation. Causes serious eye irritation. Suspected of causing cancer. Suspected of damaging fertility or the unborn child. May cause drowsiness or dizziness. May cause damage to organs through prolonged or repeated exposure.

PREVENTION:

Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Keep away from heat, sparks, open flames, and hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container. Do not pierce or burn, even after use. Wash thoroughly after handling. Wear protective gloves. Do not breathe dust, fume, mist, spray, vapors, gas. Use only outdoors or in a well-ventilated area.

RESPONSE:

IF ON SKIN: Wash with plenty of water.

If skin irritation occurs: Get medical attention. Take off contaminated clothing and wash before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical attention.

IF SWALLOWED: Immediately call a poison center or doctor. Do NOT induce vomiting.

IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a poison center or doctor if you feel unwell.

If exposed or concerned: Get medical advice or attention.

Store locked up. Dispose of contents and container in accordance with local, state, and national regulations. Protect from sunlight. Do not expose to temperatures exceeding 49°C/120°F. Store in a well-ventilated place.

INGREDIENTS/CAS#:

Acetone, propan-2-one, (67-64-1); Propane (74-98-6); Iron Oxide (1309-37-1); Butane (106-97-8); Toluene (108-88-3); n-butyl acetate (123-86-4); 2-(propyloxy)ethanol, EGPE (2807-30-9); 2-propanol (67-63-0); Xylene (1330-20-7)

NFPA® RATINGS:

Health: 1; Flammability: 4; Reactivity: 0

DIRECTIONS:

PREPARATION: Surface must be clean and dry before painting. For best results, use when can is between 70°F and 90°F. Previously painted surfaces should be cleaned with a mild detergent, rinsed and thoroughly dried. Test a small area for compatibility and adhesion.

APPLICATION: Shake can at least one minute before and occasionally during use. Spray surface with steady, even strokes at a distance of 8 to 10 inches. Several light coats give a better finish than one heavy coat. If clogging develops, turn spray button 1/4 turn or remove and clean button slot. Do not stick objects into can opening. After painting, turn can upside down and spray for 2 seconds to clean spray button. Discard empty can in trash pick-up. Do not incinerate or compact.

DRYTIME: Dries to the touch in approximately 30 minutes. Be sure the first coat is dry before applying a second coat. The rate of cure will vary with the film thickness, temperature and humidity. Typical curing time is 24 hours. Recoat in 3 to 6 months or as wear indicates.

WARNING: This product contain, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

Non-flat paint products do not exceed 1.40 MIR.
