DANGER: Causes serious eye irritation. May cause allergy or asthma symptoms or breathing difficulties if inhaled.

PREVENTION: Avoid breathing spray, mist. Wash thoroughly after handling. Wear eye protection, protective clothing, protective gloves. In case of inadequate ventilation, wear respiratory protection.

IF INHALED: Remove person to fresh air and keep comfortable for breathing.

If experiencing respiratory symptoms:
Call a poison center/doctor.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical advice/attention.

DYNASTY DRAIN MAGIC utilizes the digestive abilities of naturally occurring bacteria to break up organic material (food waste, animal and vegetable fats, oils and undissolved soap residue) into smaller water-soluble particles. Bacterial activity will have little effect on clogs created by inorganic materials (plaster, film developing products and plastic articles). If you have a clog composed of these items, remove the inorganic matter first and use this product according to label directions.

DIRECTIONS:

TO REMOVE DRAIN BLOCKAGES:

Pour 2 ounces of **DYNASTY DRAIN MAGIC** into clogged drains. Its thickened formula will carry this unique product directly to the site of the stoppage. Allow drain to sit undisturbed for at least 6 hours, preferably overnight. Flush drain with hot water for several minutes to loosen clog and restore normal drain flow. If flow is not completely restored, repeat treatment.

FOR DRAIN MAINTENANCE:

Most drain clogs result from the accumulation of food materials on the inside of drain surfaces. Regular use of **DYNASTY DRAIN MAGIC** establishes an active bacteria population that works continuously to keep organic blockages from occurring. Adding 1 ounce

of **DYNASTY DRAIN MAGIC** to drains once a week and allowing it to work overnight ensures that drains will remain open. For drains that receive large amounts of organic matter (kitchens and garbage disposals), increase the dosage to 2 or 3 ounces once per week.

NFPA® RATINGS:

Health: 2; Flammability: 0; Reactivity: 0

INGREDIENTS/CAS #:

Water (7732-18-5); Propylene glycol (57-55-6); Nonylphenol polyethoxylate (9016-45-9); Acrylic polymer(s) (Not hazardous); Viable bacterial cultures (NA).

For industrial and commercial use only.
