NFPA® RATINGS:

Health: 2; Flammability: 1; Reactivity: 0

INGREDIENT/CAS #:

Water (7732-18-5); Urea Monohydrochloride (506-89-8); Anti-Staining Solution (Proprietary); Linear Alcohol Ethoxylate (34398-01-1); Surfactant Blend (Proprietary).

Please Recycle.

DE-SCALE CI will not cause skin burns or produce toxic fumes yet it is strong enough to quickly and easily remove heavy soils on contact. This concentrate is very versatile and can be used on almost every surface including stainless steel, sinks, showers, tubs, tile, grout, toilets, urinals and aluminum. **DE-SCALE CI** cleans stains like rust and algae from concrete buildings and walks; replaces acid to remove cement from construction equipment, trucks, pouring forms, structural steel and tools; dissolves hard water build-up, lime, scale and corrosion in boilers, air conditioners and refrigeration units, condensers and circulating systems. A proprietary inhibitor package prevents damage to metals, and detergents and wetting agents enhance its cleaning power. Plus, **DE-SCALE CI** is a 100% biodegradable formula, making it an environmentally safer cleaner.

DIRECTIONS:

DE-SCALE CI may be used as-is or diluted with up to 10 parts of water, depending on the severity of the soil. Spray or foam onto surface to be cleaned or apply with damp sponge or cloth. Allow **DE-SCALE CI** to remain on surface a sufficient amount of time before wiping surface clean. Heavy deposits may require light scrubbing with a brush. Rinse thoroughly with clean water or wipe with a damp sponge or cloth.

PLEASE NOTE: This product may have an adverse effect on certain porcelain, ceramic or antique finishes, terrazzo, and polished metallic finishes. This product should not be used on colored grout, marble, or glazed surfaces. If uncertain, test on an inconspicuous area before using.
