Disposal: Offer empty container for recycling. If recycling is not available, discard container in trash.

WARNING:

This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

This fast-acting, odorless LIQUID DRAIN OPENER is convenient to handle and ready-to-use. It opens drains and sewers by dissolving, liquefying and loosening vegetable and animal fats and oils, lint, hair, paper, roots and other organic matter. Because it is heavier than water, it moves directly to the point of obstruction and immediately starts to penetrate and dissolve the blockage. LIQUID DRAIN OPENER also does a great job of keeping X-ray and film developing drain lines open and free-flowing.

DIRECTIONS

Pour 1/2 to 1 quart slowly into the drain. Allow to work for at least 30 minutes, then flush with hot water. For difficult obstructions, a second treatment using the recommended quantities may be necessary. Where there is a history of drains becoming obstructed, regular use at weekly intervals (or more often if required) will keep the lines open and free flowing.

NFPA® Ratings

Health: 3; Flammability: 0; Reactivity: 1

Contains/CAS Number:

Sodium Hydroxide/1310-73-2; Water/7732-18-5;
Potassium Hydroxide/1310-58-3

Please Recycle.
