SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after eye contact

First-aid measures general : If you feel unwell, seek medical advice (show the label where possible). Ensure that medical

personnel are aware of the material(s) involved, and take precautions to protect themselves.

Remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing First-aid measures after inhalation

respiratory symptoms: Call a poison center or a doctor.

First-aid measures after skin contact Take off immediately all contaminated clothing and wash it before reuse. Wash with plenty of soap

and water. If skin irritation or rash occurs: Get medical advice/attention.

Rinse immediately with plenty of water for 15 minutes. Remove contact lenses, if present and easy

to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion Rinse mouth. Get medical advice/attention if you feel unwell.

Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction. Extremely flammable. Symptoms/injuries

Symptoms/injuries after skin contact May cause an allergic skin reaction.

Symptoms/injuries after eye contact Direct contact with the eyes is likely irritating.

Symptoms/injuries after ingestion : Not expected to present a significant ingestion hazard under anticipated conditions of normal use.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media : Water fog. Dry chemical powder. Carbon dioxide. Alcohol-resistant foam.

Unsuitable extinguishing media : Do not use a water jet since it may cause the fire to spread.

5.2. Special hazards arising from the substance or mixture

: Extremely flammable aerosol. Under fire conditions closed containers may rupture or explode. Fire hazard

Explosion hazard : Contents under pressure. Pressurized container: may burst if heated.

: Upon combustion: CO and CO2 are formed. Reactivity

5.3. Advice for firefighters

Firefighting instructions : Exercise caution when fighting any chemical fire. Move containers away from the fire area if this can

> be done without risk. Use water spray or fog for cooling exposed containers. For massive fire in cargo area, use unmanned hose holder or monitor nozzles, if possible. If not, withdraw and let fire

burn out.

Protection during firefighting : Do not enter fire area without proper protective equipment, including respiratory protection.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

General measures : Stay upwind/keep distance from source. Evacuate unnecessary personnel. Vapors may travel long

distances along ground before igniting/flashing back to vapor source.

6.1.1. For non-emergency personnel

Protective equipment : Do not enter without an appropriate protective equipment. Advice local authorities if considered

necessary. DO NOT touch spilled material. Ventilate the area thoroughly, especially low lying areas

(basements, work pits etc.).

Emergency procedures Do not breathe gas. Evacuate unnecessary personnel. Keep upwind. Ventilate spillage area.

6.1.2. For emergency responders

Protective equipment Equip cleanup crew with proper protection.

Emergency procedures Stop leak if safe to do so. Stop release. Ventilate area.

6.2. Environmental precautions

Avoid release to the environment. Advice local authorities if considered necessary. Stop leak if safe to do so. Do not contaminate water with the product or its container. Prevent entry to sewers and public waters. Do not allow to enter drains or water courses.

6.3. Methods and material for containment and cleaning up

For containment : Eliminate every possible source of ignition. Prevent the product from entering drains or confined

> areas. Form with air vapors (heavier than air) who stay on the floor. Stop leak if safe to do so. Stop the leak. Turn leaking containers leak-side up to prevent the escape of liquid. Isolate area until gas

has dispersed. Collect spillage.

Carefully collect the spill/leftovers. Clean contaminated surfaces with an excess of water. Dispose as Methods for cleaning up

hazardous waste.

after use. Keep away from heat, sparks and flame.

Precautions for safe handling : Avoid prolonged and repeated contact with skin. Intentional misuse by deliberately concentrating and

inhaling may be harmful or fatal. Do not breathe gas/vapor/aerosol. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. . Do not spray on a naked flame or any incandescent material. Do not smoke while handling product. Ground/bond container and receiving equipment. Do not re-use empty containers. Avoid contact with skin and eyes. Use only outdoors or in a well-ventilated area. Observe normal hygiene standards. Wash hands and other exposed areas with mild soap and water before eat, drink or smoke and when

leaving work. Do not discharge the waste into the drain.

Hygiene measures : Wash thoroughly after handling.
